

cosmoSys-Req - Feature #306

An action (link, button) to update the redmine repository view

12/04/2019 12:52 PM - Txinto Vaz

Status:	New	Start date:	12/04/2019
Priority:	Normal	Due date:	
Assignee:	Txinto Vaz	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
report_visibility:	No	SortString:	0
Temptative?:	No		

Description

When a change is done at the filesystem and pushed to the repository, the Redmine is not showing that change. Only when an action where the repository is involved is executed (upload, report, download), the redmine repo view is updated. A button to update the repo without executing an action is needed. This is also useful when the reporting templates are changed.
